*Marine Corps veteran, accredited technology instructor, and former low brass section leader with experience leading teams in high-pressure environments, training and mentoring learners from beginner to advanced, and building cohesive ensembles. Known for leading from the front, setting clear expectations, and using structured systems (SOPs, mentorship frameworks, and daily practice plans) to help people grow with confidence and accountability.*

## Leadership Profile

Marine Corps veteran, accredited technology instructor, and former low brass section leader with experience leading teams in high-pressure environments, training and mentoring learners from beginner to advanced, and building cohesive ensembles. Known for leading from the front, setting clear expectations, and using structured systems (SOPs, mentorship frameworks, and daily practice plans) to help people grow with confidence and accountability.

## Leadership & Ensemble Experience

### High School Band Program

Section Leader — Low Brass

Junior Year - Senior Year

- Led the low brass section during rehearsals, performances, and marching band operations.
- Ran sectionals, coordinated drill corrections, and maintained musical and marching standards.
- Accounted for section members during practices, games, and events.
- Supported newer players with fundamentals, drill corrections, and confidence-building feedback during rehearsals and games.

### United States Marine Corps

Deployed

Deployment Leadership — Operation Inherent Resolve

- Deployed in support of Operation Inherent Resolve, providing critical power redundancy and electrical systems continuity for Marines operating in-theater.
- Maintained consistent power for camp shelter and climate control units, preserving readiness in high-risk environments.
- Ensured uninterrupted power supply for mission-essential systems under austere and high-risk conditions.
- Contributed to forward-deployed sustainment operations, directly supporting mission readiness.

### United States Marine Corps

MCAS Cherry Point, NC

Corporal — Quality Control NCO

Feb 2019 - Aug 2019

- Maintained equipment readiness for life-sustaining utilities and engineering equipment worth more than \$7M, enforcing strict Marine Corps compliance standards, and coaching Marines to uphold strict standards.
- Authored and implemented SOPs that reduced rework rates and improved repair accuracy.
- Trained and coached junior Marines in QC procedures and safety protocols.
- Compiled performance data and reports for command leadership, conducting regular meetings with external leadership entities representing my section.

### United States Marine Corps

MCAS Cherry Point, NC

Corporal — Assistant Maintenance Chief

Apr 2018 - Feb 2019

- Managed operational scheduling for critical life-support equipment, maximizing readiness and uptime.
- Coordinated parts requisitions and repair contracts for over \$7M in supported assets.
- Supervised and trained technicians; oversaw maintenance scheduling and spare-parts inventory.
- Provided daily direction to shop personnel and ensured timely completion of priority repairs, conducting regular meetings with external leadership entities representing my section.

### Effortless Development

Brooklyn, NY

Technical Lead & Co-Founder

Jan 2020 - Jul 2022

- Directed strategic technical, architectural, and operational decisions for a growing engineering agency.
- Led and mentored cross-functional teams of developers, designers, and project contributors.
- Designed and delivered scalable software solutions across web and mobile ecosystems (Next.js, React, Flutter).
- Oversaw client communications, sales consultations, and successful project delivery cycles.

### Nebula Academy

Remote

Accredited Technology Instructor

2023 - 2024

- Designed and taught curricula for Power Platform, Python, and Web Development using adult-learning and cognitive-science principles.
- Built structured learning environments using LMS platforms and hands-on coding environments.
- Led classroom sessions and project-based evaluations for professional, adult, and K-12 learners.
- Coached learners to solve problems independently, reinforcing process over perfection to build confidence and autonomy.

### Moons Out Media

Remote

Technical Director (Software Engineering)

Mar 2025 - Present

- Defined and executed the company's software engineering roadmap, aligning technical strategy with creative and business objectives.
- Architected scalable web applications, APIs, and internal tools using TypeScript, Next.js, Python, and Vercel infrastructure.
- Designed and managed high-availability on-prem and cloud infrastructure for media production and streaming.
- Built AI-driven workflows to automate client deliverables and internal processes.
- Instituted engineering culture: CI/CD pipelines, code review standards, performance monitoring.
- Mentored junior engineers and established team development practices.

## Education

### General Assembly

New York, NY

Software Engineering Immersive

Dec 2019 - Mar 2020

- Completed 500+ hour full-stack software engineering program focusing on modern web development
- Built multiple full-stack applications using JavaScript, React, Node.js, Express, and PostgreSQL

### Brooklyn College, CUNY

Brooklyn, NY

Computer Science (12 Credits)

2018 - 2019

- Coursework in Computer Science and Mathematics

### American InterContinental University

Chandler, AZ

General Studies

2013 - 2014

- Completed general education requirements

## Technical Skills

**Technical** React, TypeScript, modern web development; experienced in building tools and systems to support teams

## Professional Skills

<b>Leadership</b>	Team Leadership, Mentoring, Project Management, Strategic Planning, Decision Making
<b>Communication</b>	Technical Instruction, Documentation, Client Relations, Team Collaboration, Public Speaking
<b>Problem Solving</b>	Critical Thinking, Troubleshooting, Root Cause Analysis, Process Improvement
<b>Military Skills</b>	Quality Assurance, Maintenance Management, Technical Training, Safety Compliance, Risk Assessment

## Certifications & Clearances

### Nebula Academy

Accredited Technology Instructor

Jan 2023 - Jan 2024

- Trained to design and deliver technology-focused instruction in corporate, K-12, and adult-education settings through the Academy's "Educators" program
- Applied adult-learning and cognitive-science principles to create engaging learning environments
- Developed and sequenced curriculum for Microsoft Power Platform, Python, and Web Development
- Leveraged educational technology platforms including LMS management and coding sandboxes
- Assessed learner outcomes through project-based evaluations and formative feedback

### United States Department of Defense

Secret Security Clearance

Sep 2015 - Sep 2019

### U.S. Environmental Protection Agency

EPA 608 Universal Certification

Jun 2018 - Present
