Professional Summary

Software engineer with a record spanning full-stack web development, technical instruction, and Marine Corps utilities engineering. Builds learning systems, document pipelines, and interactive web experiences in TypeScript/Next.js and Python; previously delivered technology curricula as an accredited instructor and maintained life-sustaining critical utilities infrastructure — generators, power distribution, and refrigerant systems — for expeditionary sites, including micro-grids built from AMMPS-series generators. This curriculum vitae is the comprehensive record; a condensed resume is generated from the same source data.

Experience

Scrutable™

Adel, GA / Remote

Founder & Managing Alchemist

Mar 2026 - Present

- Converted independently owned software, research, and operational assets into Scrutable™, an independent sole proprietorship, beginning in Mar 2026.
- Built an AI product factory designed to turn business data and operating context into cohesive, usable applications.
- Shifted from a single-project focus to a repeatable system for selecting, building, and shipping a portfolio of software products.
- Directs product strategy, technical architecture, infrastructure, and delivery across the Scrutable™ portfolio.

Moons Out Media

Remote — Ohio

Lab Director & Systems Alchemist — Moons Out Labs

Mar 2025 - Mar 2026

- Ran Moons Out Labs, an assumed business name of Moons Out Media, as its infrastructure and systems arm.
- Architected scalable web applications and internal tools using TypeScript, Next.js, Tailwind CSS, Python, and V0 on Vercel.
- Developed the initial AI-completion systems concept for turning business data into cohesive, usable applications.
- Designed and managed cloud-based and on-premise infrastructure using Docker, AWS, Google Cloud, and Vercel.

Nebula Academy

Remote — New York

Accredited Technology Instructor & Software Engineer

Sep 2022 - Mar 2025

- Joined as an Instructor-in-Training and advanced to Accredited Technology Instructor after establishing a record of effective technical instruction.
- Designed and delivered software engineering instruction using curriculum development, competency-based assessment, and iterative learner feedback.
- Reorganized curriculum and contributed full-stack improvements to the academy's curriculum repository and learning-management system.

Effortless Development

Brooklyn, NY

Technical Lead and Co-Founder

Jan 2020 - Jul 2022

- Directed strategic technical and architectural decisions, guiding agency growth and service offerings.
- Managed and mentored cross-functional teams of developers and designers.
- Led scalable solution design across Next.js, React.js, Flutter, Tailwind CSS, and Dart.
- Oversaw client engagements, sales consultations, and project delivery.

General Assembly

New York, NY

Software Engineering Fellow

Dec 2019 - Mar 2020

- Completed a 12-week immersive training (400+ hours) in full-stack development: HTML, CSS, JavaScript, React, Ruby on Rails, Express, SQL.
- Partnered with UX designers to implement accessibility enhancements on a Booking.com redesign project.
- Engaged in agile, project-based development and collaborative team workflows.

United States Marine Corps

Quality Control Non-Commissioned Officer

MCAS Cherry Point, NC

Feb 2019 - Aug 2019

- Assumed the QC billet after turning the Assistant Maintenance Chief role over to an incoming sergeant; managed program turnover through end of service.
- Conducted formal inspections and audits of electrical systems, enforcing Marine Corps standards.
- Developed and implemented SOPs that reduced rework rates and improved repair accuracy.
- Coached junior Marines in quality control techniques; compiled performance reports for command.

United States Marine Corps

Assistant Maintenance Chief

MCAS Cherry Point, NC

Apr 2018 - Feb 2019

- Filled this sergeant's (E-5) billet as a corporal (E-4), selected ahead of grade to meet the shop's needs.
- Scheduled and prioritized maintenance tasks for life-sustaining critical utilities infrastructure, optimizing equipment availability.
- Coordinated parts requisitions and repair contracts to minimize downtime of >\$7M in assets.
- Supervised and trained technicians; managed spare parts inventory and maintenance budgets.

United States Marine Corps

Engineer Electrical Systems Technician

MCAS Cherry Point, NC

Sep 2015 - Apr 2018

- Performed preventive and corrective maintenance on generators, pumps, and power distribution systems.
- Created micro-grids with AMMPS (Advanced Medium Mobile Power Sources) generators to power expeditionary sites.
- Deployed to Incirlik Air Base, Turkey (2017) supporting VMAQ-3's electronic-warfare operations against Da'esh under Operation Inherent Resolve.
- As half of a two-Marine power team, kept the generator site, HVAC, and power distribution online — carrying communications through active grid outages on redundant generator power.
- Diagnosed electrical and mechanical malfunctions; logged work orders per technical manuals.
- Assisted senior technicians and trained new Marines on maintenance procedures.

Projects

Review Game Core

TypeScript

2026 - Present

- Concept-layer toolkit for study products: concept primitives, guided repetition policy, session contracts, and persistence boundaries with docs and tests.

About-Me Document Pipeline

Python, LaTeX, YAML

2026 - Present

- YAML-to-LaTeX publishing system generating versioned resume, CV, and cover-letter artifacts with schema validation and privacy scanning.

Astronomy: Future Compute

Next.js

2026

- Interactive astronomy presentation rebuilt as a navigable web app with presentation modes and a deployed live site.

lfx — lf theme manager

Go

2026

- Terminal CLI for managing lf themes, icons, plugins, and registry files; installable via Homebrew.

brandongottshall.com

Next.js, Payload CMS

2026 - Present

- Portfolio and public project record: App Router implementation, CMS-backed content, and published document artifacts.

Education

Valdosta State University

Bachelor of Science in Data Science (In Progress)

Valdosta, GA

2025 - Present

General Assembly

Software Engineering Immersive

New York, NY

2019 - 2020

Brooklyn College, CUNY

Computer Science (12 Credits Earned)

Brooklyn, NY

Fall 2021

Technical Skills

Languages	TypeScript, JavaScript, Python, Ruby, Dart, SQL, HTML5, CSS
Frameworks	React, Next.js, Node.js, Express.js, Ruby on Rails, Flutter
Cloud & DevOps	AWS, Google Cloud, Azure, Docker, Kubernetes, CI/CD, GitHub Actions
Databases	PostgreSQL, MongoDB, Redis, Sequelize, Drizzle
Tools	Git, Linux, VS Code, Postman, Thunder Client, Jira, Figma, Adobe Creative Suite
Methodologies	Agile, Scrum, Test-Driven Development, DevOps, AI/ML Integration

Professional Skills

Leadership	Team Leadership, Mentoring, Project Management, Strategic Planning, Decision Making
Communication	Technical Instruction, Documentation, Client Relations, Team Collaboration, Public Speaking
Problem Solving	Critical Thinking, Troubleshooting, Root Cause Analysis, Process Improvement
Military Skills	Quality Assurance, Maintenance Management, Technical Training, Safety Compliance, Risk Assessment

Certifications & Clearances

Nebula Academy

Accredited Technology Instructor

Issued 2023

- Recognized after serving as an established instructor for demonstrated ability to design, communicate, and deliver technical instruction
- Applied adult-learning and cognitive-science principles to create engaging learning environments
- Assessed learner outcomes through project-based evaluations and formative feedback

United States Department of Defense

Secret Security Clearance (Inactive)

Sep 2015 - Aug 2019

- Historical clearance held during Marine Corps service; no current access or active eligibility claimed
- Reflects prior adjudication and accountability for handling sensitive information

U.S. Environmental Protection Agency

EPA 608 Universal Certification

Jun 2018 - No expiration

- Highest-tier (Universal) federal refrigerant credential, earned while maintaining life-sustaining critical utilities infrastructure in the Marine Corps.

Languages

English	Native or bilingual proficiency
Spanish	Professional working proficiency
French	Elementary proficiency
German	Beginner
